

Living Local Recipe #55

Cheese "Chips"

by Robert L. Hall, CCP

Any hard to medium hard cheese, shredded

Arrange small, thin circles of shredded on a baking sheet lined with baker's parchment. Bake in a 350 degree oven until bubbly, and "dry" on top. Remove from oven and allow to cool. Store in an airtight container at room temperature. Can be made several days in advance. (Be careful not to burn the cheese).
